readyworks®

Accelerate Your Migration with ReadyWorks

ADDRESSING URGENT VMWARE MIGRATION NEEDS

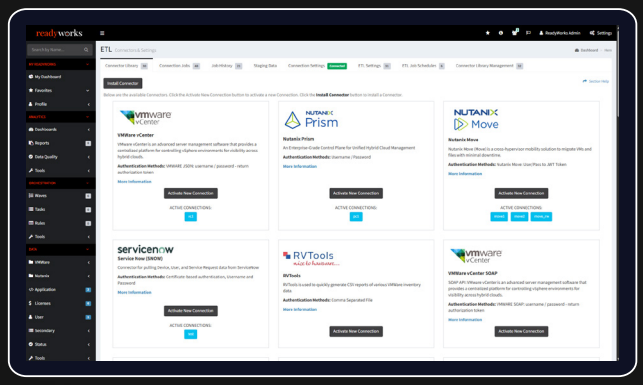

In light of Broadcom's VMware acquisition, organizations are urgently seeking migration to Nutanix due to concerns over pricing increases, reduced innovation, and uncertain future roadmaps. The ReadyWorks Platform transforms this challenge into a strategic opportunity by providing visibility, automation, and risk reduction during migrations.

Feature Synergy: Nutanix MOVE and ReadyWorks

Experience how Nutanix MOVE, paired with ReadyWorks, enhances core features to deliver a more comprehensive, seamless migration solution.

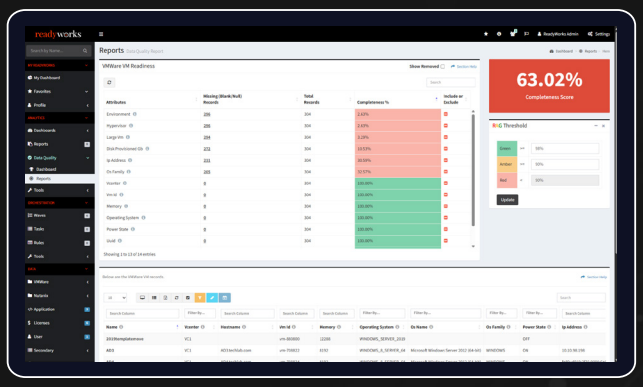

FEATURE	Move	Move + readyworks
Cross-hypervisor migration	✓	✓
Support for cloud platforms	✓	✓
Agentless migration	✓	✓
Continuous data synch	✓	✓
Non-disruptive testing	✓	✓
Automated virtual machine cutover	✓	✓
License cost visibility & insights		✓
Virtual machine inventory analysis		✓
Pre-migration risk analysis		✓
Wave planning		✓
Automated scheduling		✓
Automated communications		✓
End-to-end migration orchestration		✓
Executive reporting		✓
Auditing & compliance		✓

CONNECTION & ORCHESTRATION:

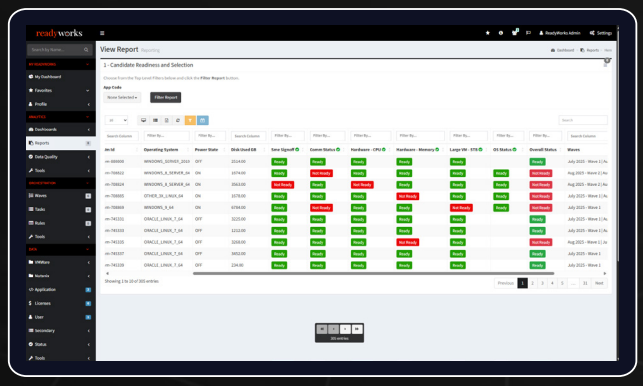

Connectors allow you to orchestrate all of the systems required for migration including Nutanix Prism, Nutanix Move, & VMWare VCenter. Readily connect to any other system with ease.

DATA QUALITY SCORING:

Quickly understand what information you have, what you're missing, and where there are data conflicts.

INTELLIGENT ANALYTICS:

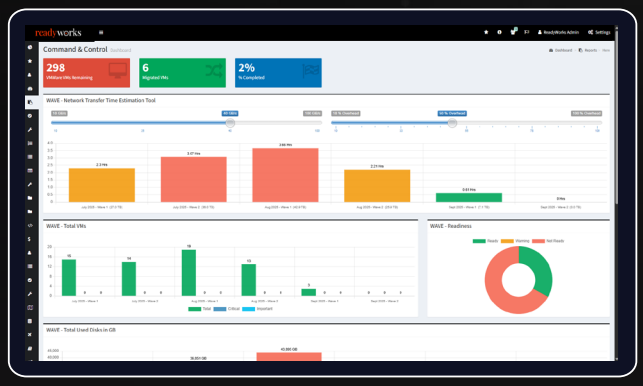

Intelligent analytics identify potential migration risks and provide a wholistic view of migration readiness.

WAVE PLANNING:

Organize virtual machines by application, business line, or any other criteria and then place them into automated migration waves.

LIFECYCLE MANAGEMENT:

Model migrations based on network capacity in order to ensure cutovers will be completed in required timelines.

MIGRATION AUTOMATION:

Rich analytics allow you to visualize every aspect of your VMware environment, Nutanix environment, and the status of your migration.

Key Strategic Business Impacts

1. Unlocking Operational Efficiency

- **Virtual machine inventory analysis and pre-migration risk assessment**
  - Ensure a smooth migration process.
  - Reduce complexity.
  - Enhance overall efficiency.
- **Pre-migration intelligence**
  - Minimize risk and eliminate downtime surprises.

Executive Outcome: Accelerated migration with minimal disruption to core business operations.

2. Seamless Stakeholder Alignment for Faster Decision-Making

- **Automated communications and timely reporting**
  - Keep all stakeholders constantly informed.
  - Enable faster decision-making and smoother project execution.
- **Enhanced collaboration**
  - Alignment across technical and business teams.

Executive Outcome: Improved project governance and quicker alignment between technical teams and business teams and business objectives, resulting in reduced delays.

3. Increased Transparency and Risk Reduction

- **ReadyWorks serves as a system of record**
  - Ensure observability of assets.
  - Document key actions and decisions.
  - Reduce operational risks and support compliance efforts.
- **Technologent end-to-end orchestration and auditing capabilities**
  - Provide transparency across the migration process.

Executive Outcome: Improved oversight during migration, with documented processes that support risk management and compliance initiatives.

Compelling Benefits for All Stakeholders

- **Rapid Implementation**
  Day-one connectors to Nutanix and VMware, enabling quick action.
- **Immediate Impact:**
  Inventory visualization to identify potential issues like VMs over 5 TB before they become bottlenecks.
- **Enterprise-Grade Planning:**
  Organize VMs through a project manager's lens, not just an engineer's—ensuring clarity and efficiency.
- **Predictive Modeling:**
  Model migration duration based on network capacity to avoid slowdowns.
- **Automation:**
  Covers VM migration and all additional planning and execution requirements.
- **License Cost Visibility:**
  Identify candidates for post-migration cleanup and decommissioning of legacy VMware systems which helps optimize resources during post-migration.
- **Compliance Support:**
  Audit trail of migration steps, providing peace of mind and supporting efforts to meet regulatory standards.
- **Executive Insights:**
  Reporting tailored for stakeholders and decision-makers, translating technical processes into actionable business insights.

Elevate Your Migration Strategy

Choose ReadyWorks to transform migration challenges into strategic advantages. Our solution reduces risk, cuts costs, minimizes manual labor, and **provides value for all stakeholders — from engineers to executives.**
